School Assignment

Transporting

- If a student becomes homeless during the school year and temporarily resides in a different attendance area, the parent, guardian, or unaccompanied youth and the district Homeless Coordinator should decide whether or not it is in the student's best interest to remain at the school of origin.
- The homeless child may remain in the school of origin for the remainder of the academic year.

Transporting

- Both districts must equally split the cost of transporting a homeless student to the school of origin, or if the school of origin is not determined to be in the best interest of the child, to the school of best interest.
- It is, however, the resident district's responsibility to fill out and submit the homeless transportation reimbursement form to our department for both districts involved.

Transporting

- This applies to all cases of homeless transportation reimbursement except when the resident district has a homeless grant.
- Homeless transportation reimbursement requests must be from the current fiscal year and must be submitted after the actual transportation has occurred.

Use Of Title I Funds

- A child or youth who is homeless and is attending any school in the district is eligible for Title I services.
- Title I of the Elementary and Secondary Education Act (ESEA) targets those students most at risk of failing in school. Among students at risk of school failure are children and youth experiencing homelessness.

Use Of Title I Funds

- Examples of services may include: extended days/learning opportunities, homework clubs, Saturday schools, early morning tutoring, summer intercessions, summer academic camps;
- Coordination of services with shelters or other homeless service providers as appropriate;
